

Summary of Pinniped Haulouts and Rookeries

Numbers of animals and species are based on combining individual species data (2003-2004), and include northern elephant seal, Pacific harbor seal, California sea lion, Steller sea lion, and northern fur seal. All species may not be present at any given time.

Map Citation: NOAA National Centers for Coastal Ocean Science (NCCOS) 2007. Data Sources: Rookery data are from: Mark Lowry, NOAA's Southwest Fisheries Science Center; Brian Hatfield, U.S. Geological Survey; Rick Condit, Smithsonian; Pat Morris, UCSC; Bill Sydeman, Farallon Institute; Joelle Buffa, Farallon Island NWR, National Park Service; Sarah Allen, Pt. Reyes Nat. Seashore, National Park Service. Map developed by R.G. Ford Consulting Co. and NOAA NCCOS.
